My freelance profile on Malt
ohhappydev

in More detailed version
nicolasgautron

11 years of experience in PHP, mainly on back-end architectures. Eager to expand my skills in new areas. After 8 years in the development of payment systems, I am trained to:

- ✔ Handle and securize sensitive data.
- ✔ Communicate with colleagues and external partners from all around the world, from any business unit.
- ✔ Do the balance between business opportunities and the conception of testable and maintainable architectures.

Professional experiences

Oh Happy Dev - since 2021 | Freelance developer

Count on me to join your team and to carry out all kinds of subjects and responsibilities: development, architecture, team and project management, consulting...

Deezer - 2014 - 2021

Music streaming service. The payment team has many responsibilities: payment journey, subscription management, risk management, rollout of offers...

2020 - 2021 | Architect and back-end developer

- New logging and monitoring strategy based on the Elastic Stack.
- Introduction of the event based communication through Kafka.

2018 - 2020 | Lead developer

- Management of 7 developers: 1-1, performance review, career follow-up...
- Organization inspired by the Agile and Holacracy worlds.

2014 - 2018 | Web developer

- My missions were mainly focused on the customer experience.

Rue du Commerce - 2012 - 2014 | PHP developer

Online marketplace. In the payment team, I mainly worked on the integration of new payment methods and risk management systems.

Orange - 2009 - 2012 | JS and PHP developer

Orange is the n°1 telco in France. I developed internal tools helping to manage the ADSL and FTTH networks.

Education

Executive MBA - Epitech
IT management, entrepreneurship
2017 - 2019

IT engineer - EPITA
Apprenticeship with Orange
2009 - 2012

Electronic technician
Specialized in Assembly language
2007 - 2009

English

Some work to do for the oral part but I don't have any problem to read and write a documentation, understand and participate to a meeting.

Extra-professional

- Watch way too many TV shows.
- Have a beer with colleagues.
- Post photos of my trips.
  📷 nicolasgautron
- Learn things and write tutorials on my personal website: tuto4.dev
